YOUR IMAGE: Use this to change to make yours match the final image. Use the direct select tool, anchor point tool, add anchor points, etc...to change the image below.

LAYERS PANEL:

MY IMAGE: Use this image as a reference for you to match yours too.

HEART BEATS BENEFIT

YOUR IMAGE: Use this to change to make yours match the final image. Using ONLY Arrange commands and the Layer menu.

HEART BEATS BENEFIT

MASKING:

1. Start by ensuring that the vector shape to be masked is in front of the content to be masked.
2. Make a copy of the vector shape you are using to cut (Cmmd + C) and then paste to back (Cmmd + b).
3. Select the vector shape and the content you will be masking.
4. Choose Object menu > Clipping Mask > Make. The selected content will become a clip group.

SHAPE BUILDER:

MY IMAGE: Use this image as a reference for you to match yours too.

YOUR IMAGE: Use these shapes and the shape builder tool to change these shapes make yours match the final image.
