Adobe Visual Design

ILLUSTRATOR 2.04

1 _____ Anchor Point

2 _____ Arc Tool

3 _____ Area Type

4 _____ Closed Path

5 _____ Fill

6 _____ Image Trace

7 _____ Open Path

8 _____ Pen Tool

9 _____ Point Type

10 _____ Spiral Tool

11 _____ Stroke

A A point on a path that indicates a change of direction

B Allows the conversion of raster images to editable vector artwork

C Creates curved lines

D Creates spiral lines

E Creates vector paths that can be converted into selections that in turn can be used to extract or mask groups of pixels

F Does not end, they don't connect back to the original anchor point

G Has the same beginning and ending point, it forms a complete shape that can be filled with color or text

H Text begins right where you click and does not automatically wrap to the next line

I The text fills in a closed path

J The outline of a shape, text, or image

K The inside color of a closed shape
